Hospital FAQ Assistant - Knowledge Base

A clean, generic hospital FAQ dataset created for a RAG-based Hospital FAQ Assistant prototype. The information is intentionally generic and should be replaced with verified hospital-specific information before use in a real clinical setting.

1. What are the hospital visiting hours?

Answer: General visiting hours are from 4:00 PM to 6:00 PM. Visiting hours may vary by department.

2. Is emergency service available 24 hours?

Answer: Yes. The Emergency Department is available 24 hours a day, 7 days a week.

3. How can I contact the emergency department?

Answer: For emergencies, contact the hospital emergency desk or call the emergency number provided by the hospital.

4. Is ambulance service available?

Answer: Yes. Ambulance services are available for patients who need transportation to or from the hospital.

5. How can I book a doctor appointment?

Answer: You can book an appointment through the hospital reception, by phone, or through the hospital's online appointment system.

6. Can I visit a doctor without an appointment?

Answer: Walk-in consultations may be available depending on the department and doctor. It is recommended to make an appointment in advance.

7. How can I register as a new patient?

Answer: New patients should complete registration at the hospital reception or registration desk. A patient identification number may be issued after registration.

8. What documents are needed for registration?

Answer: Patients should generally carry a valid identity document and any relevant previous medical records. Additional documents may be required depending on the service.

9. What is a patient ID number?

Answer: A patient ID number is a unique number used by the hospital to identify and maintain a patient's medical records.

10. Where is the registration desk?

Answer: The registration desk is usually located near the main reception or entrance of the hospital.

11. Is there an outpatient department?

Answer: Yes. The hospital provides outpatient services where patients can consult doctors without being admitted.

12. What is an outpatient consultation?

Answer: An outpatient consultation is a medical consultation where the patient visits the hospital and returns home without being admitted.

13. How can I find a department?

Answer: You can ask the information desk or reception staff for directions to a specific department.

14. Is there an information desk?

Answer: Yes. The information desk helps patients and visitors with hospital directions, services, appointments, and general information.

15. What services does the information desk provide?

Answer: The information desk provides directions, general hospital information, service details, and assistance with common patient queries.

16. Is a pharmacy available?

Answer: Yes. The hospital has a pharmacy where patients can obtain prescribed medicines.

17. Is the pharmacy open 24 hours?

Answer: The hospital pharmacy may provide 24-hour service depending on the facility. Please confirm current operating hours with the pharmacy or reception.

18. Can I get medicines prescribed by a doctor?

Answer: Yes. Prescribed medicines may be obtained from the hospital pharmacy, subject to availability.

19. Is there an inpatient pharmacy?

Answer: An inpatient pharmacy may provide medicines and supplies required for admitted patients.

20. Where can I pay my hospital bill?

Answer: Hospital bills can generally be paid at the billing counter or through supported online payment methods.

21. What payment methods are accepted?

Answer: Hospitals commonly accept cash, cards, and digital payment methods. Available options should be confirmed at the billing counter.

22. Can I pay the bill online?

Answer: Online payment may be available for selected hospital services. Check with the hospital billing department.

23. What is inpatient care?

Answer: Inpatient care is medical care provided to patients who are admitted to the hospital and stay for treatment.

24. What is outpatient care?

Answer: Outpatient care is treatment or consultation provided without requiring the patient to stay overnight in the hospital.

25. Can family members visit admitted patients?

Answer: Yes, visitors may be allowed during designated visiting hours and according to hospital visitor policies.

26. Are there rules for visitors?

Answer: Visitors should follow hospital safety, hygiene, identification, and visiting-hour rules.

27. Is a waiting area available?

Answer: Yes. Waiting areas are generally available near outpatient departments, reception areas, and other patient service areas.

28. Is wheelchair assistance available?

Answer: Wheelchair assistance may be available for patients who need help moving through the hospital.

29. Is patient transportation available inside the hospital?

Answer: Patient transportation assistance may be available for moving patients between departments and hospital facilities.

30. Is a laboratory available?

Answer: Yes. Hospital laboratory services may provide diagnostic tests such as blood, urine, and other clinical investigations.

31. Is diagnostic imaging available?

Answer: Diagnostic imaging services may include examinations such as X-ray, ultrasound, CT, or MRI depending on the hospital's facilities.

32. How can I collect my test reports?

Answer: Test reports can usually be collected from the laboratory or accessed through the hospital's patient portal when online reports are available.

33. Can I get a copy of my medical records?

Answer: Patients may request copies of their medical records through the Medical Records Department according to hospital policy.

34. How are medical records maintained?

Answer: Medical records are maintained by the hospital's medical records department and are used to support patient care.

35. What should I do in a medical emergency?

Answer: Go immediately to the Emergency Department or contact emergency medical services. Do not delay urgent medical care.

36. What should I bring to the hospital?

Answer: Bring identification, previous medical records, current prescriptions, relevant test reports, and appointment details when applicable.

37. Can I bring previous medical reports?

Answer: Yes. Previous medical reports can help doctors understand the patient's medical history and plan appropriate care.

38. Are consultation appointments required?

Answer: Appointments are recommended for consultations to reduce waiting time and help patients see the appropriate doctor.

39. Can appointments be cancelled or changed?

Answer: Appointment changes or cancellations may be possible. Contact the hospital appointment desk as early as possible.

40. How early should I arrive for an appointment?

Answer: Arrive early enough to complete registration and other required formalities before the scheduled consultation.

41. Is there a help desk for patients?

Answer: Yes. Patients can approach the information or help desk for assistance with hospital services and directions.

42. Is there a cafeteria or food court?

Answer: Many hospitals provide cafeteria or food services for patients, attendants, and visitors. Availability depends on the facility.

43. Is drinking water available?

Answer: Drinking water facilities are generally available in designated areas of the hospital.

44. Are restrooms available for visitors?

Answer: Restrooms are available in designated areas throughout the hospital.

45. Is parking available?

Answer: Parking may be available for patients and visitors in designated hospital parking areas.

46. Is there a security desk?

Answer: Hospitals generally have security staff or a security desk to assist with safety and visitor-related concerns.

47. Can I get help with insurance documents?

Answer: The hospital billing or insurance desk may assist patients with insurance-related documentation and claim procedures.

48. What should I do if I lose something in the hospital?

Answer: Report lost property to the hospital security or help desk as soon as possible.

49. How can I provide feedback about hospital services?

Answer: Patients can provide feedback through the hospital help desk, feedback form, patient portal, or other available feedback channels.
